

Minimal Invasive Obstetrics & Gynecology Conference and Workshop

9 - 10 December, 2011
8:00 AM to 5:00 PM

Beach Rotana Hotel,
Abu Dhabi, UAE

HAAD Accreditation is in process

Learning Objectives:

Upon completion of this educational activity, participants should be able to:

- ✦ Provide practical hands-on training on laparoscopic and hysteroscopic minimally invasive procedures with evidence based recommendations
- ✦ Identify the recent advances in laparoscopic, hysteroscopic and minimally invasive techniques
- ✦ Identify the safety measures of laparoscopy and hysteroscopy procedures.
- ✦ Recognize the indication, contraindications and complications of office gynecology procedures.
- ✦ Demonstrate competency in the instrumentation and setup of the equipment as an office procedure.
- ✦ Improve hysteroscopic surgical techniques in the operating room.
- ✦ Identify the abnormal uterine bleeding as a national problem
- ✦ Discuss the laparoscopic role in the treatment of abnormal uterine bleeding
- ✦ Review the most effective and minimally invasive therapeutic and surgical approaches of hysteroscopy in abnormal uterine bleeding

Target Audience:

Minimally Invasive Surgeons and Gynecologists, Gynecologists, General Surgeons, Bariatric Surgeons. Endoscopic Surgeons, Colon/Rectal Surgeons, Oncological Surgeons, Pediatric Surgeons, ER Physicians, Family Physicians, General Practitioners and Allied Health Professionals
