

Multispecialty Seminar On Oncology, Cardiology, Pediatrics & Gastroenterology

December 15, 2015 | Rosewood Hotel, Abu Dhabi, UAE

Welcome Note

Dear Colleagues

On behalf of the scientific committee, we have the pleasure to welcome you to the **"Multispecialty Seminar on Oncology, Cardiology, Paediatrics and Gastroenterology"** to be held at Rosewood Hotel, Abu Dhabi on 15th of December, 2015.

The program aims to discuss a wide array of topics including the newest treatment of serious heart failure utilizing Autologous Skeletal Myoblast Sheets, advanced treatment of cancers utilizing Carbon Ion Radiotherapy and the effectiveness of new medical methodology in Oncology, Pediatrics and Gastroenterology.

The meeting gathers prominent speakers and experts in their fields from top medical centers in Japan for engaging discussions, information sharing and experience-based perspectives.

The event prides itself on having the most up-to-date clinical, scientific and academic program, concentrating not only on future therapies, but also on disease prevention and treatment goals

The seminar serves as a dynamic forum which promotes productive clinical debates between practicing physicians and researchers on critical issues within Oncology, Cardiology, Pediatrics and Gastroenterology.

This meeting will offer a superb opportunity for physicians and medical specialists to attend expert updates and to share best practices and experiences and to network with new and established colleagues, creating and strengthening clinical collaborations

It's our sincere hope that your attendance at this valuable program provides the educational knowledge you need to further your professional growth in Oncology, Pediatrics and Gastroenterology.

We take this opportunity to welcome your participation and wish you a pleasant learning experience.

Dr. Hirohiko Tsujii

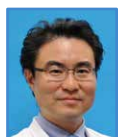

Research Fellow, National Institute of Radiological Sciences (NIRS)
Managing Director, Association for Nuclear Technology in Medicine
Visiting Professor, Gunma University, Japan

Sponsored by:

Speakers

Dr. Sumihito Tamura, MD, PhD, FACS

Associate Professor of Surgery, Graduate School of Medicine and Faculty of Medicine, the University of Tokyo; Director, International Medical Center, the University of Tokyo Hospital; Director, University of Tokyo Tissue Bank; Senior Staff, Artificial Organ and Transplantation Division, Department of Surgery, the University of Tokyo Hospital

Dr. Takashi Kenmochi, MD, PhD

Professor, Department of Transplant Surgery, Fujita Health University, School of Medicine; Director, Organ Transplantation Center, Fujita Health University Hospital

Dr. Yutaka Tanaka, MD, PhD

Chief Interventional Cardiologist, Department of Cardiology & Catheter Laboratory, Shonan Kamakura General Hospital

Dr. Keitaro Domaie

Resident Doctor, The Osaka University Hospital

Dr. Naoki Sasahira, MD, PhD

Cancer Institute Hospital of Japanese Foundation for Cancer Research, Division Manager of Hepato-Biliary-Pancreatic Medicine

Dr. Hirohiko Tsujii, MD, PhD

Research Fellow, National Institute of Radiological Sciences (NIRS); Managing Director, Association for Nuclear Technology in Medicine; Visiting Professor, Gunma University

Dr. Toshio Fujisawa, MD, PhD

Staff, Department of Gastroenterology, NTT Medical Center

Dr. Yasunari Niimi, MD, PhD

Director, Center for Neurological Diseases Chief, Department of Neuroendovascular Therapy St. Luke's International Hospital

Dr. Takeshi Sano, MD, PhD, FRCSEd

Chief of Gastroenterological Center, Deputy Hospital Director, Cancer Institute Hospital

Dr. Hitoshi Kato, MD, PhD

Director, The Hospital of National Center for Child Health and Development (a.k.a. National Medical Center for Children and Mothers)

Learning Objectives

Upon Completion of this educational activity, participants should be able to:

- Discuss newest treatment of serious heart failure utilizing Autologous Skeletal Myoblast Sheets
- Recognize the advanced treatment of cancers utilizing Carbon Ion Radiotherapy
- Realize effectiveness of new medical methodology in Oncology, Cardiology, Pediatrics and Gastroenterology

Target Audience

Doctors who are specialized in:

- Surgery / Organ Transplant Surgery
- Radiology
- Oncology
- Cardiology
- Pediatrics
- Gastroenterology
- Medical students who are interested in learning therapy of such categories
