Welcome Message

Dr. Anwar Sallam

Dr. Jamal Al-Jubeh

Dr. Bilal Mohammad

Dear Colleagues,

On behalf of the scientific and the organizing committees, we are delighted to invite you to the **16th SEHA International Pediatric Conference (SIPC 2022)**, to be held **hybrid on 25-27 March, 2022** at Conrad Abu Dhabi at Etihad Towers, Abu Dhabi, UAE

The 16th SIPC 2022 features state-of-the-art advances in pediatric care and research delivered through an expert panel of local and international faculty with decades of experience at leading pediatric institutes. The event will provide attendees with an opportunity to learn, debate, and network with peers in this very active scientific field.

Our Scientific Committee works hard to bring the best speakers and to address the most important issues in pediatrics that affect children and their families. A comprehensive three-day program has been developed by the committee to highlight the current challenges and clinical development in pediatrics.

The topics of the conference present the latest updates in management and diagnosis of common pediatric diseases and disorders delivered by renowned pediatric experts. Moreover, dedicated time slots for Meet the Expert Sessions have been allocated to allow delegates a more interactive, hands-on experience to keep abreast of the latest developments and future perspectives within the field.

The meeting presents a great opportunity for practicing pediatricians and other healthcare workers to participate in a conference dedicated to treatment advances in pediatric care.

We look forward to you all joining us in March 2022, it will be a delight to meet all friends and colleagues, network and forge new collaborations, and be able to focus on the many diverse aspects of pediatric diseases and improving the care of our patients.

Sincerely yours,

Dr. Anwar Sallam

16th SEHA International Pediatric Conference 2022 is Going Hybrid

The SIPC 2022 will be a hybrid event (there will be both an in-person conference and a virtual conference) because some people may not be able to travel due to the pandemic or its economic impact. Making the congress more accessible helps us to achieve our mission to elaborate and advance the pediatric medicine, and to expand the contribution to pediatric community by reaching a much larger audience all over the region.
