In compliance with

THE REGION'S LARGEST SKIN CARE EVENT

Dear Colleagues,

It is a moment of pride and pleasure for us to welcome you all to the “5th Abu Dhabi International Conference in Dermatology and Aesthetics” taking place on 12-14 September, 2019 at Jumeirah Etihad Towers Hotel in Abu Dhabi, UAE

Our past events have proven to be major success and have been instrumental in further developing and solidifying our field as an important part of healthcare. Dermatology and Aesthetics are truly a multi-faceted and dynamic fields, highly susceptible to research & development. This duly warrants regular reviews and updates.

AIDA Conference is gaining a reputation as one of the world's largest skin care meetings and an inspirational and empowering event tackling all dermatology and aesthetic medicine challenges and offering new ideas and latest innovation in dermatology within healthcare in the UAE, the Middle East and the Region.

A comprehensive three-day program has been prepared through combined collective effort by members of the scientific committee, who furthermore has secured participation of renowned national and international speakers and leading experts for their unique insights, featuring high quality program and covering diverse disciplines of Dermatology and Aesthetics in order to ensure the conference surpasses all expectations.

The program aims to offer reliable scientific updates and to focus on the latest developments in current and controversial issues in dermatologic surgery, aesthetic dermatology and laser technology in order to meet the challenges and opportunities that arise and to improve patients outcomes. A whole range of scientific and educational activities will be presented by leading experts to provide the practical needs to the skin care professionals.

Additionally, more attention is paid on featuring multiple best practice workshops, meet the experts session, IMCAS Alert session, Key note presentations, case studies and demonstrations, poster display competitions and abstract submissions dedicated to skin care specialists who are involved in the treatment of various types of skin diseases.

During the conference, awards will be attributed to the best case awards, the most interactive candidates and the best poster presentation. The event will be a great opportunity to share views, exchange knowledge and establish collaborations and networking with colleagues in the field from across the globe.

We are certain that your active participation and presence in the conference will significantly contribute to the success of this meeting.

We wish the conference a great success, and the overseas guests and participants a nice stay in Abu Dhabi.

Abu Dhabi is the capital city of the United Arab Emirates (UAE), and the largest of the seven emirates federation. Year-round sunshine, pristine beaches, spectacular sand dunes and pulsating cosmopolitan lifestyle await every guest in Abu Dhabi. This emirate known around the world for its massive oil reserves and majestic mosques with towering minarets. These, combined with the distinct Arabic hospitality and mystique - and world-class infrastructure - make Abu Dhabi an excellent destination both for the experienced and novice traveller.

Abu Dhabi city bursts with dazzling business-cum-leisure facilities ranging from state-of-the-art convention centre, luxurious hotels, spas, designer golf courses, theatres and very soon, some of the world's most famous museums. The palace-like shopping malls and indigenous souqs in Abu Dhabi make for a great shopping expedition. Gastronomic treats further abound from cool and sophisticated cafes, clubs and restaurants. For the fitness conscious, jogging and cycling are a welcome treat in along the city's charming Corniche or beachfront, merely minutes away from the bustling city centre.

Location

Abu Dhabi emirate is in the Arabian Gulf region. It adjoins the Kingdom of Saudi Arabia and the Sultanate of Oman. Occupying almost 87% of the country's total area, Abu Dhabi emirate covers around 67, 340km², which comprises mostly desert, including part of the Empty Quarter (Rub Al Khali) and salt flats/sabkha. Abu Dhabi's coastline extends over 400 Km.

The emirate is divided for administrative purposes into three regions. The first encompasses Abu Dhabi city, which is both the emirate's capital and the federal seat of government. The island city of Abu Dhabi is just 250 metres from the mainland, which has many other suburbs. The main bridges, Maqta, Mussafah and Sheikh Zayed Bridge, connect Abu Dhabi city to the mainland, with others currently being constructed. There are around 200 natural islands in the emirate including the Saadiyat, Yas, Lulu and Sir Bani Yas islands.

History

Parts of Abu Dhabi were settled as far back as the 3rd millennium BC, and its early history fits the region's nomadic, herding and fishing patterns.

The Arabian Gazelle is known locally as 'Dhabi', and gave its name to the country's capital, Abu Dhabi (Father of the Gazelle) by the early Bani Yas tribe hunters who discovered the island when tracking a gazelle and found a rare freshwater spring.

Until the mid-20th century, camel herding, agriculture, fishing and pearl diving were the major occupations within the emirate. Everything changed in 1958 when oil was discovered and the development of modern Abu Dhabi commenced.

Climate

Sunshine and blue skies can be expected almost every day in Abu Dhabi. The city experiences a really hot and humid climate in the months of April to September when the maximum temperatures average above 40 °C (104 °F). During this period, unpredictable sandstorms also occur in the city and sometimes visibility gets down to a few meters. Normally, air-conditioning systems can be found in all buildings in the city. The period of October to March is comparatively cool. Dense fog can be also seen on some days. January and February are the coolest months of the year.
