*All 2 DAY registrants for the AHIMA World Congress Middle East Healthcare Information Summit will receive a complimentary copy of AHIMA's 2016 ICD-10-CM Code Book (\$110 USD value).*

AHIMA World Congress, the international arm of the American Health Information Management Association (AHIMA), is dedicated to providing the gold standard in membership services, best practices, professional training and development, and certifications to its members, credential holders and customers around the world. AHIMA's members are located in 66 countries and credential holders are in 44 countries. AHIMA World Congress currently has two international chapters in the United Arab Emirates (UAE) and the Philippines.

AHIMA has provided extensive training, testing and resources for physicians and health information professionals in the areas of clinical coding, clinical documentation improvement (CDI), data analytics, informatics, and information governance in many countries, including the UAE, Qatar, Saudi Arabia, Oman, Turkey, India, the Philippines, Canada, Australia, the United Kingdom, Belgium, Germany and Spain.

#### About AHIMA

AHIMA is a leading nonprofit professional association representing more than 103,000 health information management (HIM) 66 countries. AHIMA is dedicated to educating, supporting, and promoting HIM professionals to excel in their careers and deliver value by acquiring, managing, and analyzing information for clinical and nonclinical decision making. AHIMA plays a leadership role in the effective management of health data and medical records needed to deliver quality healthcare and has earned its reputation as the most respected and recognized authority for HIM through its continuous dedication and commitment. Known throughout the world for its "Gold Standard" content and rigorous education, training, and certification programs, AHIMA's well-proven content and methodologies benefit thousands of healthcare professionals across all continents. Of specific interest are its 10 professional certifications, half of which are offered internationally—the Certified Coding Associate (CCA®), Certified Coding Specialist (CCS®), Certified Coding Specialist—Physician-Based (CCS-P®), Certified Documentation Improvement Practitioner (CDIP®), and the Certified Health Data Analyst (CHDA®). AHIMA launched its first certification in 1932 and to date, has certified more than 85,000 healthcare professionals in more than 44 countries.

## Summit Objectives

- Analyze how healthcare data is used in various departments in healthcare organizations (including coded data and clinical documentation)
- Design processes and procedures for acquiring healthcare data and translate that data into usable information
- Formulate best practices for analyzing healthcare data
- Assess how to best protect your healthcare data and information
- Evaluate the latest healthcare technology

## Key Topics

- HIM Best Practices
- Clinical Coding
- Health Informatics
- Information Governance
- Clinical Documentation Improvement
- Health Data Analytics
- Research and Education
- Revenue Cycle Management
- Leadership
- Information Technology
- Quality (Documentation Standards, Coding and Documentation Audits)
- Clinician (CDI, Training, Coding)

## Key Features

- State of the art lectures
- Presentations by renowned speakers from different parts of the world
- Poster presentations and world class exhibits
- Interactive sessions
- Case discussions
- Hands-on workshops
- Platform for global networking
- Connecting scientific community

## Target Audience

- Healthcare Stakeholders
- Payers
- Providers
- Vendors and Auditors
- Coding Professionals
- Health Information Managers
- Insurers
- Data Analysts
- Administrators
- Doctors, Pharmacists, and Other Healthcare Professionals
- Chief Financial Officers (CFOs)
- Finance and Revenue Cycle Personnel
- Registration Personnel
- Clinical Researchers, Policy Makers and Regulators
- Government and Health Authority Officials

## Hybrid Coding Exam Prep Workshop for CCA, CCS-P, CCS (combined prep for all three certifications) Abu Dhabi

Faculty: **Angie Comfort, RHIA, CDIP, CCS, CCS-P**, Senior Director, HIM Practice Excellence, AHIMA, USA and **Maria Ward, MEd, RHIT, CCS, CCS-P**, Director, HIM Practice Excellence, AHIMA, USA

CCA registrants: 8:30 a.m.-12:30 p.m.  
CCS-P registrants: 8:30 a.m.-3:00 p.m.  
CCS registrants: 8:30 a.m.-4:15 p.m.

**Venue:** Cleveland Clinic Abu Dhabi,  
Room P2-938  
**CEUs:** CCA – 5  
CCS-P – 7  
CCS – 8

**Price:** CCA – 450 AED  
CCS-P – 750 AED  
CCS – 900 AED

**Register for this workshop and the AHIMA World Congress Middle East Healthcare Summit and receive a 15% discount on both registrations (cannot be combined with other discounts).**

This innovative one-day, hybrid workshop covers the domains for all three of AHIMA's coding credentials - CCA, CCS-P, and CCS. All registrants will be provided with an introductory webinar prior to the workshop that explains the three coding credentials and provides some test-preparation tips, the exam preparation book, and a post-workshop assessment that can be used as a practice exam. This workshop provides coders with a review of the exam domains and assists them in strengthening and reinforcing competencies needed to prepare for their selected coding exam. This workshop will serve as a valuable supplement to a candidate's overall test preparation plan. Each domain item in the workshop contains information specific to that content area as well as practice test questions.

Entry-level coders (CCA-eligible) and experienced coders (CCS-P & CCS-eligible) will:

- Benefit from a structured review of and exercises on the examination domains
- Become aware of needed areas for focus in test preparation
- Benefit from a review and application of ICD-10-CM/PCS coding guidelines
- Benefit from a review of CPT/HCPCS Level II codes
- Have increased confidence in their level of readiness for the CCA, CCS-P, or CCS certification exam

## CDIP Exam Prep Workshop Abu Dhabi

Faculty: **Tammy Combs, RN, MSN, CCS, CCDS, CDIP**, Senior Director, HIM Practice Excellence, Lead Nurse Planner, AHIMA, USA and **Wilbur Lo, MD, CDIP, CCA**, AHIMA World Congress Faculty, AHIMA, USA

9:30 a.m. - 4:30 p.m.

**Venue:** Cleveland Clinic Abu Dhabi,  
Room P2-926  
**CEUs:** 7

**Price:** 900 AED

**Register for this workshop and the AHIMA World Congress Middle East Healthcare Summit and receive a 15% discount on both registrations (cannot be combined with other discounts).**

Prepare to earn AHIMA's highly-respected Certified Documentation Improvement Practitioner (CDIP) certification. This one-day in-person workshop covers all of the six domains in the CDIP exam: Clinical & Coding Practice, Leadership, Record Review & Document Clarification, CDI Metrics & Statistics, Research & Education, and Compliance. Faculty will incorporate real-world examples and learning activities into the training to facilitate learner retention. All registrants will be provided with an introductory webinar prior to the workshop that explains the CDIP credential and provides some test-preparation tips, the exam preparation book, and a post-workshop assessment that can be used as a practice exam. After successful completion of the workshop and certification-specific pre and post online study and assessment, attendees will be better prepared for the CDIP certification exam.

Attendees will be able to:

- Apply knowledge of official coding guidelines and MS-DRG assignment
- Understand CDI workflow processes
- Analyze and develop effective physician queries
- Evaluate CDI metrics and statistics for tracking the effectiveness of the CDI program
- Identify and apply CDI best practices
- Become aware of needed areas of focus for test preparation

Healthcare continues to become more data-driven, making health data analysts more valuable than ever. Individuals who earn the Certified Health Data Analyst (CHDA) designation will achieve recognition of their expertise in health data analysis and validation of their mastery of this domain. This workshop is an extensive one-day face-to-face event designed to prepare the healthcare professional to sit for the CHDA examination. All domains covered in the CHDA exam are reviewed, including Data Management, Data Analytics, and Data Reporting.

The CHDA Exam Prep Workshop will prepare CHDA-eligible candidates to:

- Sit for the CHDA certification exam
- Apply knowledge of how to interpret analytical findings for clinical, financial, and operational recommendations
- Validate results through qualitative and quantitative analysis
- Demonstrate the expertise needed to generate routine and ad-hoc reports using internal and external data sources
- Review the development and maintenance of data architecture and data structures to support business needs

With the continuing advancements in technology and the increasing demand for qualified health informatics professionals the new informatics credential - Certified Professional in Health Informatics (CPHI) - will provide credibility and recognition to individuals who possess the required knowledge and expertise of health informatics. The new credential will enable an individual to further advance their career. It also demonstrates a competent workforce and professional group for system support, subsequent organizational support, prestige, and the opportunity to belong to a prestigious premier professional association.

### The CPHI Preview will:

Introduce candidates to the CPHI certification exam domains and eligibility requirements, including the following topics:

- Data Analysis and Utilization
- Data Reporting
- Data Management, Privacy, and Security
- Management of Health Information Systems and Processes
- Database Management
- Informatics Training
- Project Management

Ensuring the privacy, security, and confidentiality of personal health information has always been a fundamental principle for the health information management (HIM) profession. Today, HIM professionals continue to face the challenge of maintaining the privacy and security of patient information, an effort that grows in complexity as information becomes more and more distributed in electronic systems. The challenge of this responsibility has also increased due to the constantly changing legislative and regulatory environment.

Attendees will be able to:

- Evaluate the importance of robust privacy and security practices within their facility
- Realize the role that HIM professionals play in protecting patients' privacy and security
- Examine the differences between privacy, security and confidentiality
