## Welcome Message

Dear Colleagues,

It is a moment of pride and pleasure for us to welcome you to the **"9th Abu Dhabi International Conference in Dermatology and Aesthetics"** taking place on **26-28 May, 2023 at Conrad at Etihad Towers Hotel in Abu Dhabi, UAE.**

Our past events have proven to be major success and have been instrumental in further developing and solidifying our field as an important part of healthcare. Dermatology and Aesthetics are truly a multi-faceted and dynamic field, highly susceptible to research & development. This duly warrants regular reviews and updates.

AIDA Conference is gaining a reputation as one of the region's largest skin care meetings and an inspirational and empowering event tackling all dermatology and aesthetic medicine challenges and offering new ideas and latest innovation in dermatology within healthcare in the UAE, the Middle East and the Region.

A comprehensive three-day program has been prepared through combined collective effort by members of the scientific committee, who furthermore has secured participation of renowned national and international speakers and leading experts for their unique insights, featuring high quality program and covering diverse disciplines of Dermatology and Aesthetics in order to ensure the conference surpasses all expectations.

The program aims to offer reliable scientific updates and to focus on the latest developments in current and controversial issues in dermatologic surgery, aesthetic dermatology, anti-aging and laser technology in order to meet the challenges and opportunities that arise and to improve patients' outcomes.

A whole range of scientific and educational activities will be presented by leading experts to provide the practical needs to the skin care professionals. Additionally, more attention is paid on featuring multiple best practice workshops, meet the expert's session, IMCAS Alert session, Key note presentations, case studies and demonstrations, poster display competitions and abstract submissions dedicated to skin care specialists who are involved in the treatment of various types of skin diseases.

During the conference, awards will be attributed to the best-case awards, the most interactive candidates and the best poster presentation. The event will be a great opportunity to share views, exchange knowledge and establish collaborations and networking with colleagues in the field from across the globe.

We are confident that AIDA 2023 Congress will serve as a place of learning where we can all share the latest models, approaches, and research representing for all participants a treasured personal and professional experience.

We wish you a very productive and successful conference.

**Dr. Khaled Othman**

## Learning Objectives

- Review current state-of-the-art advances in Dermatology, Aesthetics, Anti-aging Medicine, Laser and Cosmetics.
- Apply gained knowledge to the care and treatment of patients.
- Recognize new and evolving therapies for various conditions involving the skin.
- Apply clinical practice recommendations and evidence-based guidelines to advance patient care in daily practice.
- Implement evidence-based best practice strategies.
- Apply the various treatment options available.

## Highlighted Topics Include:

### DERMATOLOGICAL DISEASES

- Allergy
- Psoriasis
- Advanced in Acne
- Hair Care
- Hair Therapies and Transplantation
- Alopecia disease and Alopecia Areata
- Clinical Dermatology
- Dermatology: Therapies & Advances
- Diagnostic Techniques in Dermatology
- PIGMENTARY DISORDERS (vitiligo, melasma, melanoma, hyper-pigmentations)
- Nail disorders
- Photodynamic therapy in medical and Aesthetic Dermatology
- Psychodermatology
- Dermatological Oncology
- Burns
- Paediatric Dermatology
- Acute dermatological Diseases
- Skin-Toxic Pharmacology
- Skin Cancer
- Clinical Immunology
- Viral Skin Infection
- Bacterial Skin Infection
- Rosacea - Update on Latest Treatments

### LASER THERAPY

- (acne treatment, vascular, resurfacing treatment of melasma and pigmentary disorders, hair growth and diode), + work shop
- Advanced laser treatment for skin diseases

### COSMETIC DERMATOLOGY

- Botox update+ work shop
- Fillers updates+ work shop
- The world of Chemical peels
- PRP and Mesotherapy hot topics
- Aging Dermatology
- Forever young concept
- Medical skin care and rejuvenation
- Peri-orbital and dark circles treatment
- Comprehensive acne scar treatment
- Perioral rejuvenation
- Treatment Options for Women's Hair
- Loss
- Pearls to Rejuvenate Aging Knees
- Things You Did Not Know You Could do with a Filler
- Fillers complications
- Non surgical lipodissolve

### MINIMAL INVASIVE SURGERIES

- Non-invasive Lifting and tightening of the skin + work shop
- Stem cells and fat grafting
- Body contouring
- Hand and face rejuvenation
- Threads face and body lifting
- Female genital aesthetic
- Male genital aesthetic
- Facial liposculpture
- Liposuction and fat grafting
- Nose correction

## Target Audience

- Clinical Dermatology
- Pediatric Dermatology
- Cosmetic Dermatology
- Psychodermatology
- Dermatological Oncology
- Aesthetic Medicine
- Anti-aging Medicine
- Plastic Surgery
- General Surgery
- Obstetrics & Gynecology
- Dental Medicine
- Family Medicine
- General Practitioners
- Nurses

## Key Features

- Presentation by renowned speakers from over the world
- Poster presentations and world class exhibits
- Interactive Sessions
- Platform for global networking
- Connecting scientific community

## General Information

### VENUE

The Conrad Abu Dhabi Etihad Towers is part of the five tower Etihad Towers complex, offering exceptional design-led rooms, suites, serviced residences, unique conference and meeting facilities, a 74 floor observation deck, 12 award-winning restaurants and bars and a full spa with 13 treatment rooms. The modern hotel is within 10 minutes of the Presidential Palace and offers over 10,000 sq. ft. of event space, three outdoor pools, and a private beach. A standing testimony to dramatic sculptural forms and spectacular design, Conrad Abu Dhabi Etihad Towers sets the scale for unprecedented luxury experiences in Abu Dhabi. Bordered by the sea on one side, and the fashionable Corniche on the other, the hotel is easily accessible from the airport (37 km) and is within minutes of the city's most exclusive shopping malls such as Marina Mall, the Central Business District, and the UAE Presidential Palace.

### NAME TAGS

Participants are required to wear their name tags throughout the meeting in order to be admitted to the lecture halls and other scheduled activities.

### REFRESHMENT AND LUNCH

Refreshment and lunch will be offered in accordance with the breaks indicated on the Agenda.

### CYBER INTERNET

Free internet will be available in the exhibition area during the conference.

### MOBILE PHONES AND PHOTOGRAPHY

Participants are kindly requested to keep their mobile phones silent mode in the conference hall and refrain from taking photographs during sessions.

**Dr. Michael Schenker**  
Consultant Plastic Surgeon,  
Mediclinic Airport Road,  
Abu Dhabi, UAE

After graduating from Medical School in his native Germany, Dr Michael trained as a surgeon in the United Kingdom, where he completed Plastic Surgery Specialist Training. He worked as an NHS Consultant at Newcastle upon Tyne University Hospitals from 2006. In 2013, he moved to Abu Dhabi, where he was Chief of Plastic Surgery at Mafraq Hospital and Sheikh Khalifa Medical City until 2020. Since early 2021 he has been working at Mediclinic Airport Road Hospital. Although his original subspecialties were Hand and Peripheral Nerve Surgery, Microsurgical Soft Tissue Reconstruction and Skin Cancer, he discovered his interest in Hidradenitis (HS) Surgery, which is now his main field of practice at Airport Road Hospital. He combines traditional excisional with modern reconstructive techniques, but also widely practices surgical de-roofing. Deroofing has become popular amongst Dermatological Surgeons since 2010, but many surgeons limit its use for mild to moderate Hurley 2 disease in an outpatient surgery setting. Dr Michael is promoting deroofing in the following settings: a) for advanced Hurley 3 disease as a downstaging tool before excision and reconstruction, b) in HS with heavy inflammatory burden in combination with medical treatment and c) for HS recurrence around previously reconstructed excision sites.
