WELCOME MESSAGE

Dear Colleagues,

It gives us immense pleasure to invite you to attend UAE Webinar on **“Paired Kidney Donation from Theory to Implementation: Local, regional and international perspectives”** to be held on **2nd March, 2021** Virtually in Abu Dhabi, UAE.

This webinar aims to bring together leading clinical, academic, research and healthcare executives and industry experts to explore how we implement and improve options for patients with Chronic Kidney Disease (CKD) and End-Stage Renal Disease (ESRD), emphasizing the role of paired kidney exchange (PKE) in expanding the live donor options for patients who are in need of a kidney.

The program would also provide a premier interdisciplinary platform to address paired donation from theory to implementation from a local, regional and international perspective and what it takes to build synergies between multiple transplant programs across many countries.

We look forward to welcoming you all.

This is an event not to be missed!

Prof. Steve Holt

Chief Executive Officer, Professor Director
SEHA Kidney Care,
Abu Dhabi Health Services (SEHA),
Abu Dhabi, UAE

Dr. Ali Abdulkareem Al Obaidli

Chief Medical Officer, SEHA Kidney Care,
Abu Dhabi Health Services (SEHA), Abu Dhabi, UAE
Chairman, UAE National Organ Donation
and Transplantation Committee

Highlighted Topics

GCC Perspective:

- CKD/ESRD burden of disease and the need to expand Donor pool.
- Saudi KPD Experience
- Set up disease registries to predict optimal Renal replacement capacities and Transplantation capacities.

International Perspective:

- The innovative approaches to using PKE to expand the donor pool and improve patient outcomes.
- How PKE can be used to improve donor satisfaction.
- The tools needed for a successful PKE program
- Logistics and pitfalls
- Donor expansion methods and strategies
- Issues around highly sensitized recipients
- India's Paired Kidney Exchange Experience

Target Audience

Medical, Allied Health, Nursing Professionals, Nephrologists, Internists, Surgeons, Immunologists, Laboratory Experts, Healthcare executives, Health economists, Policy makers, Academicians, Universities and Medical Schools faculty and students.

Faculty

Dr. Ali Abdulkareem Al Obaidli
