Dear Colleagues,

It gives us immense pleasure to invite you to attend UAE Webinar on Acquired Rare Bleeding Disorders "Spotlight on Acquired Haemophilia" to be held on 2nd April, 2021 virtually in Dubai, UAE.

The webinar aims to bring together leading clinical experts to review current state of knowledge on management of Acquired Haemophilia and explore how to clinically diagnose rare acquired bleeding disorders "Acquired Hemophilia" & understand basics of Laboratory diagnosis of Acquired Haemophilia.

The program would also provide a premier platform to address Peripartum FVIII Inhibitors "a rare bleeding disorder" and share local clinical experience with Acquired Haemophilia: Case Presentations.

The scientific program covers an array of topics and state-of-the-art lectures presented by high caliber speakers and experts in their fields for engaging discussions, information sharing and experience-based perspectives.

The Webinar serves as a dynamic forum which promotes productive clinical debates between practicing physicians and researchers on the critical issues within the field of Acquired Rare Bleeding Disorders today.

The event prides itself on having the most up-to-date clinical, scientific and academic program concentrating not only on future therapies but also on disease prevention and treatment goals.

We take this opportunity to welcome your participation and wish you a pleasant learning experience.

This is an event not to be missed!

Prof. Mahmoud Marashi
Chairperson
