## Welcome Message

**Dear Colleagues,**

On behalf of the organizing and scientific committees and in partnership with University of California San Diego, USA, it gives us immense pleasure to cordially invite you to attend "**SEHA International Clinical Pharmacy Conference**" SEHA ICPC.

SEHA ICPC will be hosted **virtually on 1-2 October, 2021** in Abu Dhabi, UAE.  
The conference will focus on "**Supporting the community and advancing the profession**".

Clinical pharmacy has an evolutionary role in advancing pharmacy practice through innovation which has helped to mold clinical pharmacy into a patient-centered discipline, recognized for its contributions to improving medication therapy outcomes. This has distinguished Clinical Pharmacists' leadership role in enhancing patient care and other areas of pharmacy practice.

The scientific committee has developed a high quality program featuring respected international and local renowned speakers. The sessions will cover the most relevant topics that will feature cutting edge presentations, key note lectures, updates of multiple topics and interactive sessions with industry leaders, experts and prominent practitioners in the field.

The transformation of healthcare worldwide is redefining the roles of providers and bringing recognition to the value each member brings to the team. The value contribution of pharmacists has gained significant recognition as part of the transformation. UC San Diego Health Sciences and SEHA have been working in partnership for many years to provide the highest quality health education opportunities. UC San Diego has provided training both on the ground in the UAE as well as welcoming health professionals to its campus for advanced hands-on training opportunities. We look forward to continuing to work in close partnership for knowledge exchange and training as healthcare continues to transform.

This conference goes to the heart of matters relating to clinical pharmacy and will bring together the best clinical practitioners, allowing you to hear and meet those at the forefront of our practice. We will learn about the current challenges that lead to innovations in clinical pharmacy practice and research.

While we may not be able to meet in person this year, we are looking forward to your participation and engagement in a truly unique and dynamic conference. This online scientific assembly allows us to continue to bring forth the best in clinical pharmacy research and practice to our attendees around the globe.

Don't miss out SEHA ICPC first digital conference and exhibition, where you will be able to virtually connect with colleagues, friends and mentors.

We are looking forward to seeing you all on 1st -2nd October, 2021.
